## BIRTHDAYS.

I am content  
To let the added years  
That come to me,  
But back into the past so far  
That memory  
Can only find along the shore  
Some perfect shells and nothing more.

I am content  
That eaves-drops, bits of week  
And pebbles gray  
Float out of slat into the sea;  
For then to stray  
Would be to cherish grief and pain  
I would not, must not feel again.

I am content  
That none of life  
Can ever be  
Lived to with self-same thread and shell;  
No more to me  
Will former song, or look, or toy,  
Will the new measure of my joy.

I am content  
To live all of to-day;  
And when I dream  
Let fancy revel in the light  
That has been both here  
Beyond the present and afar—  
A steadfast, sweetly beckoning star.

I am content  
For age upon the heart  
Can never creep;  
And when at last in still night  
I seem to sleep,  
A lullaby comes to me in truth;  
The gift it brings, immortal youth.

## ELMINE'S WICKED LIFE.

Stories of this Princess's Cruelty and Adventure.

Some days ago, before the subjugation of Arabi Pasha in Egypt, the cable announced that the Princess Elmeh, sister of the late Khedive of Egypt, had espoused Arabi's cause, and had induced many of her Princesses and Princesses in Cairo to do the same. She is the richest and most noted woman in the East. She was married to an old Turkish Pasha, and he was becoming obnoxious to her, so she went to Egypt, laid herself at the feet of the Khedive, telling him that she preferred death to living with her husband, who was in every respect her inferior, and begged him to protect her. As she was a favorite of his, he appointed her husband to the generalship of Sonahin, on the Red Sea, and as he never arrived there, it is presumed that he was poisoned on the way, this being the ordinary method by which the Khedive has from time to time silenced their foes. The Princess Elmeh, thus freed herself, commenced a life which for romance, cruelty, prodigality, adventure, and dissipation has not often been surpassed. The Shoubra Palace, extending from the Shoubra road to the Nile, was pulled down and the present magnificent structure erected in its stead, containing 80 rooms, all of which are decorated and furnished in the most extravagant fashion.

A young Austrian doctor named Canelli had been in Cairo about a year. He had been a military surgeon in his own country, and, besides being a thorough master of his profession, was handsome, gay and dashing. One afternoon, as he was driving on the Shoubra road, the fashionable promenade and drive in Cairo, he saw a veiled Turkish lady making signs to him from her carriage. He mentioned it to a friend, who told him it must have been the Princess Elmeh, and that he had better expect her. Soon after that, and at short intervals, Dr. Canelli received numerous gifts from an unknown benefactor. They took the shape of flowers, fruit, jewels, and even horses and carriages, and he was at a loss to know whence they came. At about 11 o'clock one night, as he was preparing to retire, he heard a carriage rattle into his yard at a breakneck pace, and a minute later his servant appeared before him, accompanied by an elegantly attired woman, who said that his master, Kiamil Pasha, had been suddenly taken ill, and that he was waiting for the doctor down stairs, as not a moment was to be lost. Dr. Canelli dressed, rushed down stairs, and jumped into the carriage. After going some distance, the carriage stopped, the door was opened, and the woman, who up to then had been sitting by the coachman, entered, and at the same time another woman, who had been waiting in the road, entered by the opposite door, holding a lantern in her left hand. The carriage immediately went off at a tremendous pace. All this took place in less time than it takes to relate it. The doctor said that his case was hopeless; the looks of his black companions convinced him that resistance would be useless. The carriage went on rapidly for ten minutes, and stopped under an archway. A gate was closed behind them, and Dr. Canelli saw at a glance that he was in the seclusion of the Princess, a prisoner, and resolved to make the best he could of the situation. He was taken to the Swiss chalet, and, as everything in it was perfect, he made himself as comfortable as he could under the circumstances.

The woman administered to his wants, and after a careful examination of his surroundings he saw a dainty little supper which he found ready for him on the table, and without addressing himself down on the perfumed bed. He arose early the next morning, bathed and breakfasted, and finding that he was under no restraint, strolled into the beautiful garden. He was, however, closely followed by the woman, who said his name was Kerim Aga, and on approaching the outer gate on his return, was politely advised to take shelter from the sun in the chalet. He

passed the day in looking over the many well-selected books that were at his disposal, and in vain attempted to draw the woman into conversation. The most singular thing of all was that, besides his attendant, he had not seen a single human being on the premises, and considering that there were 100 slaves in the Princess's employ, he came to the conclusion that this man, Kerim Aga, was her only trusted slave and that the others were employed elsewhere, so that they should not see him. As a matter of fact, during the whole of the twenty-three days that he was a prisoner in the palace, Kerim Aga and the Princess were the only persons he saw. At seven o'clock that evening the woman told him that the sick patient wished to see him. They descended into the cellar of the chalet, and an iron door being opened by the slave, they entered a well-illuminated underground passage, after going some 200 yards, mounted a small staircase, at the top of which Kerim Aga, opening another iron door, told the doctor to enter, and disappeared. Dr. Canelli found himself in the Princess's private apartment, where he was welcomed by her in person. The doctor has since said that heaven itself hardly hardly surpasses the Princess Elmeh. For three weeks, which to him appeared to be as many days, did Dr. Canelli remain in the apartments. The more he saw of the Princess the more he thought the world had misjudged her, and he determined to become her champion the day she gave him his liberty, which he imagined he could obtain whenever he might ask for it.

At 10 o'clock of the twenty-second night Kerim Aga rushed into the room and told the Princess, in an excited manner, that one of the grooms had just been dangerously kicked by a horse. She asked the doctor if he would kindly attend to the slave, which he willingly agreed to do. Kerim Aga opened the door by which they had entered the first time, and which had remained locked ever since, and asked the doctor to follow him. As he was leaving, the Princess, kissing her jeweled fingers to him, told him to return immediately. Even as he was descending the marble stairs, although the door had been locked behind him by the woman, he could still hear her crying, "Roveries, roveries, my dear Canelli, instead of going by the passage leading to the chalet, in which attention Canelli knew the stables to be, Kerim Aga opened a door in the opposite direction, and down a long passage, followed by the doctor, whose suspicions were now fully aroused. He could hear the waters of the Nile coming up splashing at the end of the passage. All the tales he had heard about poor Gull shot through his memory, and he determined to keep his eye on the woman and the doctor, and to follow them if they attempted to escape. They had advanced some distance when Kerim Aga told the doctor to go before him, which he firmly refused to do. The woman then put down the lantern and in a second rushed upon his victim with a drawn yataghan, or heavy cut-throat, which he had concealed under his flowing robes, but Canelli, being on his guard, raised his stick, and in doing so upset the light. And now began a dreadful combat in the dark between the two strong men, one of whom was armed with a deadly weapon and bent on murder, and the other unarmed, but having his life to defend.

The woman lashed about with his yataghan, following up and wounding the doctor, whose whereabouts he could tell by the noise of his footfalls in the vault. The doctor then had the presence of mind to slip off his shoes, and this saved his life, for, as the woman moved toward the door in order to obtain assistance, or perhaps to light, he was closely and silently followed by the doctor. No sooner had he put the key into the lock than Gull rushed upon him from behind, and putting his foot to the ground, gave a grip upon his throat to let go which meant certain death. The slave did all he could to shake him off, using the yataghan to the best advantage and inflicting two severe wounds. He would evidently have been the conqueror had not the doctor dashed his head against the stone pavement with such force as to stun him. Still the doctor held on to wretch's throat until his heart ceased to beat.

Having thus escaped from what had appeared inevitable death, he pulled the body from behind the door, and, turning the key, found himself at the foot of the steps leading to the Princess's apartment and at the entrance of the passage leading to the chalet. Both of them were well illuminated. He found the chalet cellar door locked, and thinking the key might be on the dead woman's person, he returned and unsuccessfully searched the woman's body. Then he remembered that Kerim Aga had opened the door of the cave and that of the Princess's apartment with the same key, and thinking that there might be but one key to all the doors of the labyrinth, he took out of the lock, and found that it not only opened the cellar to the chalet, but also the outer gate, leading to the Shoubra road and to liberty. Once there his first thought was to rush home, but he had not gone 100 yards before he was taken with an irresistible desire to see the Princess again. He actually retraced his steps through the gate, the chalet, the passage, and up the marble staircase. Opening the door he appeared before her,

sheolless, his clothes torn to shreds, and covered with blood from head to foot. The Princess was seated on a divan, smoking a perfumed narghileh, and surrounded by seven female slaves, and seeing him uttered a cry, but did not otherwise lose her presence of mind. "Madame," said the doctor, "I have failed to find your wounded groom, but I have no difficulty in finding the body of your trusted slave and accomplice at the bottom of those steps." Before she could give the alarm he disappeared. Dr. Canelli took refuge to the Austrian Consulate, whence he was sent to Trieste, where he has practiced medicine ever since.

## Education of Apprentices.

The Boston Commercial Bulletin says:—A Springfield (Mass.) firm of iron manufacturers has recently put in practice a new system of apprenticeship which promises good results. It is intended to combine the thoroughly practical education of the shop with the theoretical education of the school; or, in other words, it is an industrial school in which more respect is given to practice than to theory. They promise to require of the apprentice 58 hours a week of work in the shop and nine hours a week of study. The term of apprenticeship for those beginning to learn a trade who are under 20 years of age is six years, in which time, under this system, it is believed that an apprentice will be qualified to rank with the best journeyman and to earn the same wages. Those who are over 20 years of age are allowed to finish their apprenticeship in five years, and those who have worked in a shop are advanced according to proficiency. All applicants are taken from 4 to 12 weeks on trial, and if not satisfactory are then dismissed. The rates of pay for labor are fixed at 12 cents per hour, depending upon age and years of apprenticeship. The firm also pays 2 cents per hour additional into a reserve fund, which is paid to those who have finished their full term of service; for the six years this amounts to \$400. The scheme in this shop grew out of the difficulty experienced in getting thoroughly qualified mechanics, and in an attempt to solve again the old problem of how to continue the system of apprenticeship now largely fallen into disuse. It is stated that this firm have already more applicants than they can accept. The scheme seems worthy of trial, and is well calculated to produce workmen not only competent for the ordinary routine of design and construction, but also capable of devising the execution of work. The scheme reminds us of the times when apprenticeship was fashionable among mechanics.

## His ways of Living.

Fifty years ago John Eicholtz went from Pennsylvania to Ohio with a capital of two silver dollars and a pocket watch. He had a disapproving father. The boy left home vowing he would become the richest E. Eicholtz living, and to that end he toiled like a slave and lived like a miser. He had just died at Urbana, where he had accumulated much more than he possessed as much common sense as industry. He had lived in the city for twenty years he had been absorbed in the idea that it was folly to sell wheat, for whatever the price might be at any particular time it was sure to go higher. He had been a general failure of the wheat crop throughout the Northwest, and enormous prices in consequence. Acting on this belief, he refused to sow the seed. During the last year he should need all his teams to haul his old stock to market and could not be bothered with crops in the field. His family are said to be bearing the brunt of the loss of the wheat. He had accumulated much more than he possessed as much common sense as industry. He had lived in the city for twenty years he had been absorbed in the idea that it was folly to sell wheat, for whatever the price might be at any particular time it was sure to go higher. He had been a general failure of the wheat crop throughout the Northwest, and enormous prices in consequence. Acting on this belief, he refused to sow the seed. During the last year he should need all his teams to haul his old stock to market and could not be bothered with crops in the field. ## CATTLE SHOW!

**FORTIETH EXHIBITION OF THE OXFORD COUNTY AGRICULTURAL SOCIETY.**

The weather for the three days of the annual farmer's festival was all that could be asked. The nights were cool and frosty and the days bright and clear.

On Tuesday, at an early hour the officers of the society were in their respective places receiving entries and assigning positions for the exhibits of the competing parties. Sec'y. and Treasurer King was ably assisted by Mr. D. G. Barrows and Mrs. John R. Sanborn. Sec'y. King occupies an unfavorable position during the fair, he is "the servant of servants and the one man needful everywhere," however he has for several years held and acceptably discharged the duties of his important trust as but few men could.

Financially the society is above board. The three good days wipes out the remaining portion of the debt incurred in erecting the new buildings of last year. The officers of the society have every reason to feel satisfied.

There were two trotting matches Tuesday afternoon, one 4 years old and the other 3 years old colts. In the four years old race, mile heat best two in three, purse \$20—\$10, \$8 and \$5, three horses started with the following score:

A. F. Jackson—"Norway Knock."	1
Joseph Tins—"Joe."	2
D. W. Bent—"Knox Patchen."	3
Time, 3:40—3:48.	

Four started in the 3 years old race, "Maud E." owned by J. B. and A. B. Robinson of Oxford; "Alice Muller," Thompson and Ellis of Canton; "Whitefoot," J. Brooks, West Paris; and "Clarence," by M. C. Delano, Canton. Purses \$12—\$6, \$4, and \$2, half mile heat, best two in three.

"Clarence."	1
"Alice Muller."	2
"Whitefoot."	3
"Maud E."	4
Time, 3:40—3:48.	

"Clarence" won first money, "Alice Muller" 2d and "Maud E." 3d. There was but few persons attending the races.

## THE SECOND DAY.

Wednesday, the great day, was fair and beautiful, and at an early hour the fair grounds were in a bustle of activity. The greater portion of neat stock, sheep, swine, and in fact nearly all live stock are entered this morning.

Sight-seers, curiosity-hunters, spectators, "whole families," "smashing" girls, with and without beaux, all classes, kinds and conditions of humanity come pouring into the grounds all the forenoon. It is estimated by good judges that there were more people on the grounds to-day than there have been for any one day for a number of years.

The great number of hawkers, peddlers, are mauling in the dimes from the rural swain. There was no open gambling on the ground whatever during the best of order during the day. There was very little, if any drunkenness, and consequently no fights and brawls.

R. Young, J. E. Long, with his famous "old Joe" and "Little Joe," his fashions, the ladies of the Cong. Society and lots of others furnished victuals for the hungry crowd. Every body was well entertained.

The first floor of the Agricultural Exhibit building is not so very well filled. Farm implements are displayed by P. C. Merrill of South Paris, who has plows, cultivators, harrows, and the Acme Sod Crusher. His O. K. State fair. This fact Mr. Merrill has well advertised. Near neighbor to him we find the enterprising hardware dealer of Norway, Mason Bro's, exhibit, consisting of the Oliver Chilled plows, Warrior Mowers, pulverizing harrows, cultivators, etc. The Casaday Sulk Plow for which they are agents was the centre of attraction for knaves of farmers who "would like to see the thing work." Geo. Blanchard of Portland through his agent makes a very creditable showing of churns, creameries, mowing machines, corn shellers, etc. W. B. Royal & Co. have their ever famous wheelbarrows on exhibition. In cash blinds, mouldings, racks, step ladders, etc., Mr. S. P. Maxim of So. Paris is the only exhibit. S. Richardson of the same place displays a cabinet of small edged tools, the only lot in the hall. C. S. Sucker, Norway, occupies a position near the door with harnesses, whips, robes, blankets, etc., taken from his stock in trade on the street. It is a good show. No competition. Mann Bro's, of Milton Plantation, formerly of Norway, have on exhibition as stylish asleigh as we ever saw. It was splendidly and substantially put together and in fact as it came from the hands of the blacksmith who ironed it. Two phonos exhibited by Libby & Mixer of Norway, and

box top by A. M. Trull for open buggies complete the list of vehicles.

We notice some twenty parcels of butter and about the same number of different varieties of cheese. In this department, Mrs. J. H. Millett, Norway; Mrs. Wm. Hall, Norway; Mrs. N. W. Millett, Norway; Mrs. H. E. Chase, Paris; Mrs. L. A. Morrill, Summit; Mrs. Jane Crockett, Norway; Mrs. E. F. Pike, Norway; Mrs. E. M. Millett, Norway; Mrs. A. R. Berry, Norway; Mrs. G. F. Hammond, Norway; Mrs. L. L. Bartlett, Norway; are the chief competitors. The South Paris Dairy association make an exhibit. The Cooley Creamer and the Davis Sewing Machine occupy a conspicuous corner.

The show of farm products is below the average. We can mention only a few and we hope none will feel slighted if they do not see special mention of their exhibit. We should be glad to know of the time for which they hold receipts and those who have not paid will be charged at the rate of \$1.50 per year up to the time of the enlargement and \$2.00 per year for as long as they thereafter see it. We shall endeavor to make our paper every better to warrant us in the advance in the price. We will send the Advertiser from January 1, 1883 to new subscribers at the rate of \$1.50. orated pottery shown by Miss Mary Martin of So. Paris.

In the substantial things of life, like bread, of the different kinds there was a small show. Canned goods, apples, pears, preserves, jellies, pickles, etc., were well represented. The cowbirds to these exhibits were Mrs. H. E. Chase, Paris; Mrs. Sarah F. Truett, Norway; Mrs. A. M. Trull, Norway; Mrs. W. O. King, Paris; Mrs. F. C. Merrill, Paris; A. Ross, Paris, and Henry Sweet of South Paris.

House plants were shown to advantage. The century plant was much observed and Mrs. H. D. Smith of Norway, makes a good exhibit; also Mrs. George of Hebron. We leave the hall George of Hebron. We leave the hall George of Hebron. We leave the hall George of Hebron.

The first floor of the Agricultural Exhibit building is not so very well filled. Farm implements are displayed by P. C. Merrill of South Paris, who has plows, cultivators, harrows, and the Acme Sod Crusher. His O. K. State fair. This fact Mr. Merrill has well advertised. Near neighbor to him we find the enterprising hardware dealer of Norway, Mason Bro's, exhibit, consisting of the Oliver Chilled plows, Warrior Mowers, pulverizing harrows, cultivators, etc. The Casaday Sulk Plow for which they are agents was the centre of attraction for knaves of farmers who "would like to see the thing work." Geo. Blanchard of Portland through his agent makes a very creditable showing of churns, creameries, mowing machines, corn shellers, etc. W. B. Royal & Co. have their ever famous wheelbarrows on exhibition. In cash blinds, mouldings, racks, step ladders, etc., Mr. S. P. Maxim of So. Paris is the only exhibit. S. Richardson of the same place displays a cabinet of small edged tools, the only lot in the hall. C. S. Sucker, Norway, occupies a position near the door with harnesses, whips, robes, blankets, etc., taken from his stock in trade on the street. It is a good show. No competition. Mann Bro's, of Milton Plantation, formerly of Norway, have on exhibition as stylish asleigh as we ever saw. It was splendidly and substantially put together and in fact as it came from the hands of the blacksmith who ironed it. Two phonos exhibited by Libby & Mixer of Norway, and

Pres. S. I. Millett, Norway; Sec'y. & Treas., A. C. P. King, So. Paris; Trustees, Horatio A. Cushman, Hebron, W. L. Stanton, Oxford; J. F. Penley, Paris; W. R. Richardson, Norway; and S. H. Millett, Norway. These officers will assume their duties sometime in January next. Mr. King has held the position of Sec'y. and Treas. since 1871.

The trial of strength of oxen did not prove so great an attraction as usual. The first pair of cattle hitched up were the seven and a half foot cattle of Prescott L. Pike. The drag was loaded with granite blocks weighing 4574 lbs. This was moved the length of the trial space, when about half a ton of additional weight was put on; this was moved a few feet.

## CATTLE SHOW!

**FORTIETH EXHIBITION OF THE OXFORD COUNTY AGRICULTURAL SOCIETY.**

The weather for the three days of the annual farmer's festival was all that could be asked. The nights were cool and frosty and the days bright and clear.

On Tuesday, at an early hour the officers of the society were in their respective places receiving entries and assigning positions for the exhibits of the competing parties. Sec'y. and Treasurer King was ably assisted by Mr. D. G. Barrows and Mrs. John R. Sanborn. Sec'y. King occupies an unfavorable position during the fair, he is "the servant of servants and the one man needful everywhere," however he has for several years held and acceptably discharged the duties of his important trust as but few men could.

Financially the society is above board. The three good days wipes out the remaining portion of the debt incurred in erecting the new buildings of last year. The officers of the society have every reason to feel satisfied.

There were two trotting matches Tuesday afternoon, one 4 years old and the other 3 years old colts. In the four years old race, mile heat best two in three, purse \$20—\$10, \$8 and \$5, three horses started with the following score:

A. F. Jackson—"Norway Knock."	1
Joseph Tins—"Joe."	2
D. W. Bent—"Knox Patchen."	3
Time, 3:40—3:48.	

Four started in the 3 years old race, "Maud E." owned by J. B. and A. B. Robinson of Oxford; "Alice Muller," Thompson and Ellis of Canton; "Whitefoot," J. Brooks, West Paris; and "Clarence," by M. C. Delano, Canton. Purses \$12—\$6, \$4, and \$2, half mile heat, best two in three.

"Clarence."	1
"Alice Muller."	2
"Whitefoot."	3
"Maud E."	4
Time, 3:40—3:48.	

"Clarence" won first money, "Alice Muller" 2d and "Maud E." 3d. There was but few persons attending the races.

## THE SECOND DAY.

Wednesday, the great day, was fair and beautiful, and at an early hour the fair grounds were in a bustle of activity. The greater portion of neat stock, sheep, swine, and in fact nearly all live stock are entered this morning.

Sight-seers, curiosity-hunters, spectators, "whole families," "smashing" girls, with and without beaux, all classes, kinds and conditions of humanity come pouring into the grounds all the forenoon. It is estimated by good judges that there were more people on the grounds to-day than there have been for any one day for a number of years.

The great number of hawkers, peddlers, are mauling in the dimes from the rural swain. There was no open gambling on the ground whatever during the best of order during the day. There was very little, if any drunkenness, and consequently no fights and brawls.

R. Young, J. E. Long, with his famous "old Joe" and "Little Joe," his fashions, the ladies of the Cong. Society and lots of others furnished victuals for the hungry crowd. Every body was well entertained.

The first floor of the Agricultural Exhibit building is not so very well filled. Farm implements are displayed by P. C. Merrill of South Paris, who has plows, cultivators, harrows, and the Acme Sod Crusher. His O. K. State fair. This fact Mr. Merrill has well advertised. the first money. Time 4-14 for one  
mile.

Tuesday night a few young men vis-  
ited a show tent on the Fair grounds.  
During their stay, one of their number  
Fred H. True fell, as was supposed, in  
a fit, but before he could be removed  
from the grounds he died. The deceased  
was about 32 years of age and un-  
married.

Wednesday and Thursday of next  
week, Oct. 11 and 12th, the Oxford  
Co. Universalist Association will meet

Wednesday morning, afternoon and  
evening, and Thursday morning and  
afternoon. Wednesday evening, Rev.  
G. W. Perry of Auburn will preach,  
and the other services will be interest-  
ing, as in fact the meetings of this As-  
sociation always are. All are invited.  
Friends are expected from different  
places in the country.

Rev. Mr. Wiswell gave a most ex-  
cellent, interesting and instructive dis-  
course on the subject of the mysterious  
death and burial of the great Law  
Giver of the Jews on the mount over-  
looking the promised land, last Sunday  
morning. He used no notes of any  
sort and held the undivided attention  
of the large audience for forty minutes,  
giving among other ideas of interest  
connected with his subject, many of  
the ancient legends connected there-  
with. Mr. Wiswell is a clear reasoner,  
a brave and generous thinker, always  
says something when he speaks, and  
never fails to interest his audience.

**Norway Lake.**

We had a splendid view of the blaz-  
ing star early on Tuesday morning in  
the eastern sky. It is a marvellous  
sight.

Miss S. P. Newhall has had her block  
of buildings painted up in tasty  
style. Stephen Pottle was boss.

S. Partridge has met with a loss in  
the death of his horse. He seems to be  
all right again for he has bought another,  
or, and comes out with a nice truck  
wagon this week.

C. W. and J. L. Partridge are feed-  
ing the hungry multitude at the Fair  
grounds this week. Their tables are  
always loaded with something good to  
eat.

Chas. E. Newhall is clerking for  
Geo. S. Ames.

C. W. Partridge has done a good job  
on the lake road by making two water-  
ing places. The town will be willing  
to pay him and the public will thank  
him.

Miss S. P. Newhall returned to Bos-

Mr. Freeman Hutchinson has inven-  
ted a new way to churn. The cream  
after being put in a churn of his inven-  
tion, is fastened to a vehicle and all he  
has to do, is to harness his horse and  
ride a mile or so and the butter is  
ready to take out. We understand he  
is to have the arrangement patented.

Ann Saunders, a crazy woman living  
at Eugene Merrill's, was found on E. A.  
Cox's doorstep last Saturday morning  
having been out all night.

Mrs. Mary F. Butler died Oct. 1st  
very suddenly of congestion of the  
brain. Mrs. B. came from Nevada  
last May to visit her father, Isaac  
Hayes, and relatives who reside in  
Lewiston. She had, of late, been stop-  
ping with her sister, Mrs. Rollin  
Towne, who lives at Swift's Corner.  
Her husband who was in Dakota, was  
immediately telegraphed, and funeral  
services will be conducted Oct. 8. Mrs.  
Butler was an estimable lady and will  
be deeply mourned. She leaves one  
child—a son.

A heavy frost Monday night.

Win. Shaw's house is nearly framed.  
Griffith Stuart proposes to build a  
residence soon.

The timber for Mrs. McFadden's  
house on Hill St. has arrived.

John Woodman expects to move to  
Michigan, with his family, in a short  
time, where he will engage in a part-  
nership business.

William Brock, aged 85 years died on  
Tuesday night last. He was an honored  
citizen and a devoted christian and his  
loss will be deeply felt by a large  
circle of friends.

S. F. Briggs is thoroughly overhau-  
ling and remodeling the cellar in his  
new store.

E. F. Stone's barn has been treated  
to a new coat of shingles.

Victor Greenleaf passed a very credi-  
table examination before Judge Wal-  
ton at the late session of the Supreme  
Court on Paris Hill and was admitted  
to practice. He will form a co-part-  
nership with G. A. Wilson esq., of this  
village.

Rev. Mr. Fuller, a former pastor of  
the 1st Cong. Church, will preach at  
Norway Center next Sabbath at 10:45  
a. m. At 2 p. m. a Children's Concert  
Exercises will occur at the M. E. Chap-

her many friends here. Mrs. T. is 55  
years old, and smart as smart can be.  
She will get in and out of a carriage  
like a "gall."

Mr. John Swan and wife start for  
their new home in California next  
Monday.

Horv's apple evaporator is hard at  
work.

The Albert Stanwood Bucket Fac-  
tory is offered at a very low figure.

"Call" tells us the boss snake story.  
Yesterday, out in the swamp, he killed  
11 wallowers all in a row. We think  
Call got mixed a little, as the big one  
was big as a large lamp chimney and  
only a foot and a half long. Out of  
proportion, Call.

Mrs. M. A. Rowe, our fashionable  
dressmaker, has gone to Boston. Wait,  
ladies, a few days for the latest style.

"Taters" are a very scarce vegetable  
here.

[Deferred from last week.]  
**Albany.**

Mrs. Mary J. Cummings, who has  
been very sick and all hopes of her re-  
covery given up, is now convalescent  
and quite comfortable.

Mr. John Cummings and his wife,  
quite aged people are both sick.

Mr. Geo. French who has long been  
in feeble health continues to be wast-  
ing away gradually.

Mr. Cyrus Chaplin has purchased a  
farm in Oxford at Welchville, whither  
he intends to move with his family  
soon. He leaves a good farm in Al-  
bany which he offers for sale at a good  
bargain.

Farmers are digging their potatoes.  
Some get a very good crop, others  
light; corn crop fair.

Austin Hutchinson has a pair of ox-  
en, girding seven feet and seven  
inches, good for work or beef,  
which he offers for two hundred and  
ten dollars. He recently sold a pair  
smaller for \$150. Mr. Chaplin sold a  
pair of two years old steers for \$70.  
This doesn't look much like hard times  
for farmers.

**Bolster's Mills.**

Charles S. Cook, a graduate of  
Bates College, has gone to the eastern  
part of the State to take charge of a  
high school.

John W. Knight died in Casco,  
Sept. 25th, aged 74 years and 2 months.  
He was born in Oisfield, where he re-  
sided till he was twenty-four years of  
age. He then married Miss Harriet  
Holden and moved to Casco Village  
where he lived thirteen years, when he  
moved to "Spurr's Corner" in Oisfield,  
where he resided twenty-six years, and  
then returned to Casco Village, where  
he spent the last ten years of his life.  
Mr. K. was an active business man, by  
trade, a carpenter and carriage maker,  
he always felt interested in building  
up the community in which he lived,  
by building houses to attract others to  
the place where he resided. He has  
filled important offices of trust, having  
served as town clerk, auditor, treas-  
urer, selectman and representative to  
the State legislature. He has been a  
Justice of the peace about forty years.  
His last sickness was brief but severe,  
being a brain difficulty. He leaves a  
widow, two children and a large circle  
of relatives to mourn his loss. Funer-  
al services were conducted by Rev. A. B.  
Lovewell at the church in Casco, where  
a large audience assembled to sym-  
pathize with those who mourn.  
Mr. Knight will be greatly missed in  
the social and business circles where  
he resided.

**Messenger's Notice.**  
OFFICE OF THE SHERIFF  
OF Oxford County.  
STATE OF MAINE.  
Oxford, ss.—September 29, A. D. 1882.  
This is to give notice, That on the twentieth  
day of September, A. D. 1882, a Warrant in in-  
solventcy was issued out of the Court of Insol-  
ventcy for Oxford County, Oxford, against the  
estate of William Harmon and Whitfield S.  
Meggall, debtors, and against the said  
debtors under the firm name of Harmon & Meg-  
gall, adjudged to be insolvent debtors, on  
petition of Henry A. Mills and Joseph W.  
Katon as creditors, which petition was filed  
on the fifteenth day of August, A. D. 1882, to  
which last named date interest on claims is  
to be computed, and the payment of any  
debts and the delivery and transfer of any  
property belonging to the said debtors, or  
for their use, and the delivery and transfer  
of any property by them are forbidden by  
law; That a meeting of the creditors of said  
debtors to prove their debts and choose one  
or more Assignees of the estate, will be held  
at a Court of Insolvency, to be holden at Paris  
in said County, on the eighteenth day of  
October, A. D. 1882, at nine o'clock in the fore-  
noon.

Given under my hand the date first above  
written, C. M. WILMELL, Deputy Sheriff as  
Messenger of the Court of Insolvency, for  
said County of Oxford.
